***Election/Restrictions***

1. Applicant's election without traverse of Group I (claims 1-24 and 40-42) in Paper No. 20031216 (received December 16, 2003) is acknowledged.

2. This application is in condition for allowance except for the presence of claims 25-39 to an invention non-elected without traverse. Accordingly, claims 25-39 have been cancelled.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

The prior art does not show or fairly suggest the claimed invention of a lens system having the claimed structure and claimed limitations, wherein a rejection under 35 USC 102 or 103 would be improper. Please particularly note the combination of claimed elements and claimed limitations, including wherein the laser is focused to a spot size of less than about 3 microns over a field having a diameter of at least about 9 mm at different depths and/or that the laser is focused over a range of depths while maintaining diffraction-limited performance and a numerical aperture of at least about 0.3 at a working distance of greater than about 36 mm, as recited in claims 1, 15 and 40; also including as recited in claim 41, the specific chart of limitations pertaining to each lens element and their relation to each other. Therefore, the claimed invention is considered to be in condition for allowance as being novel and nonobvious over the prior art.

Art Unit: 2873

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Drawings***

4. The drawings filed on 7-30-01 are acceptable subject to correction of the informalities indicated on the attached "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
